

**Federal Agencies' Experiences with Electronic Invoicing:
What are the Benefits? How difficult is Implementation?**

Description

The Assistant Commissioner for Payment Management will lead off with an overview of why electronic invoicing matters, to help those agencies considering e-invoicing. Panel members will discuss “lessons learned” from various electronic invoicing solutions: from established services such as VA's OB-10, now named Tungsten Network, to Shared Service Providers, to agencies who have implemented Treasury's Invoice Processing Platform. The panel members will also discuss the actual benefits of e-invoicing realized in their agencies.

Moderator

Peter Moore, Fiscal Service

Panelists

John Hill, AC Payment Management, Fiscal Service

James Beall, CFO, Interior Business Center

Dr. Cyprian Ejiasa, CFO, Corporation for Community and National Service
